Republican Union Club Meeting To-Night!

There will be a regular meeting of the above Club THIS EVENING at 7% o'clock at the Hall of the Merchants' Association. The preliminary organization was effected on Saturday evening. To-night a Constitution will be submitted for the government of the Club, and the organiza tion will be completed in delail.

We hope for a general attendance of those of our citizens who approve the principles of the Republican Union party, and for a cordial re-Republican Union party, and for a conductor, union of those who have been hitherto divided Mr. Junes Clancy, and the train news boy were in their personal preferences during the recent killed instantly, and a brokeman who was standcanvass for Republican nominations in this county and district. The success of the Union tickel demands that all private and personal considerations should yield to this necessity. With united and harmonious action in the Republican ranks of Crawford county we shall murch to victory in October as a certain event.

Let the hall be filled.

ending effort was being made by the Copper-Johnson Club of this city to establish a daily remarks add: paper here in opposition to THE HERALD. wery social gathering of the faithful their leading men have orated, and the "sarser" has been ssed round so often that the rank and file me disgusted. On Saturday last the subscription list had reached the sum of \$300, about half of which had been paid in. In the evening, however, an extraordinary effort was made at Hiss Opera House, and the pile was increased to \$1,200.— This sum seemed fully adequate to the enterprise in view, and the Club at once elected ten editurs, who, on Monday morning walked arm-inarm into the office of the "What ain't Trumps" and bought out the concern. On attempting to take possession of the property, however, the claim os disputed and another gentieman appeared o the scene brandishing a previous bill of sale of the same institution. This little incident disconcerted the ten editors and they at once called a special meeting of their confederates at the Bliss Opera House, where they "made Rome how!" on Monday evening in a manner that would have done credit to the Forty Thieves under the direction of Evelyn Evans on the night of a complimentary benefit.

The performance began with a recital of the outrage to which the Council of Ten had been subjected. This was followed by a general wall over their impecuniosity, and (as the enormity of the fraud dawned upon their heated imaginations), iron-clad onths by the full strength of the company. At this juncture the receiver of the money was discovered in the meeting, and the entire Siamese Club wout for his breuches pockets. The money was fortunately recovered, and

decidedly sympathize with the efforts of the Copperiodnson Club, and congratulate them upon their promising "show." We have no doubt they will succeed. Twelve hundred dollars is a good deal of money. It would nearly pay the current expenses of THE MORNING HEBALD for three consecutive weeks. And then there is Administration patronage for the Copperjoimson press, and no doubt "His Accidency" will give his Titusville bandling a lift in the way of cheap government advertising. There are Federal of-fices, too, which might be distributed among the editors, though as there is a " committee of ten' in this case to provide for, they will undoubtedly have to "cut" for the choice. For that matter however, we have received a list of the members of the club, and do not observe any who would be likely to object to pickings of that description.

The death of this gentleman, who has been so long and intimately identified with every Rait Road enterprise and improvement in New York f the Democratic party in New York State, has east a gloom upon the minds of a very large circle of his friends and acquintances. He was born in the State of Vermont, in March, 1804, from which he moved early in life to Western ons part in Railroad and political affairs up to the time of his last illness. He was present at the opening of the Philadelphia Convention and labored constantly to harmonize the discordant and multifarious opinions entertained by some of those present. During his stay there he was suddenly taken ill and conveyed to the house of Samuel J. Tilden, New York city, where with his family and friends around him, he dled.

Frequently called the Railroad King, from ble pre-eminent position among men identified in Rattroad projects, he was indeed a head and Pecuniarily Interested in a score of different sessing a larger circle of acquaintance among the most prominent and enterprising Railroad men of the country, he was always regarded as the chief, in conventions and all man ters relating to Rail transportation.

For years its acknowledged head, he has controlled more elections, local and general, by his extensive patronage and untiring energy in laboring for the success of his party in the State the Democratic political arena of the State, but he exerted an influence for more weighty than all others combined. He has left that party without a leader, and I doubt if any other man ever controls the same number of votes that he has in his day. MEADVILLE, Aug. 27, 1866. The little speek of war which appeared in the Road enterprise and tunprovement in New York horizon just after the nomination of Mr. Finney and other States, as well as with the management is rapidly subsiding. The Journal, as you are aware, bolted like a wad from a pop-gun, and seemed to imagine that if its puny strength was expended, in behalf of the Copperjohus candidate for Congress, the Republicans would stand no chance of success. But the fact has leaked out that the Journal has been actually transferred to the Copperhead party. The arrangement is that the present editor shall re main in charge and keep up appearances by sup-porting the State Republican ticket, while at the same time opposing Mr. Fluney with all the maliguancy that his treacherous nature can develop. These facts are so periodic that many who were at first inclined to follow These facts are so perfectly conclusive in the wake of the Journal are now actively ex ertian themselves to seeme the triumph of the

The Wigwam conspira are planting secret societies all over the country. They are cross between Know Nothings and Knights of the Golden Circle, and the initiation fee is five dollars per head.

We are to have a mass Union meeting here soon and are expecting Governor Curtiu, Genera Geary, and others to address the people. Geary for our standard bearer the result of the election exunot be doubtful. Led on by him, the people will have confidence in their cause and their candidate. There is not in the whole Union than any other man in this country. Mony others a man who rendered more efficient services in were more conspicuously before the public in putting down the rebellion, and he has wen the hearts of the people-and especially of the "boys in blue."

We have a good many "old soldiers" in Craw ford county, and they are almost a unit in this compaign. Their Associations, it is hoped, will be represented in the coming Convention at Pitts burgh, and that body, you may rest assured, will

Our county ticket is gaining strength every day. Since the withdrawal of Ellsworth for Sheriff and Davis for Assembly, the success of their competitors is regarded as a foregone con-clusion. We shall roll up a majority for Joe Chase that will astonish even blusself. We only ask Titusville to return the compliment on D. A. Figney. There is no longer due cause for division in the Republican family. Let by-gones se by-gones I am perfectly confident the Mr. Pettis been the successful candidate before the Convention, the friends of Mr. Finney would have supported him to a man.
